

# Environmental Enrichment

## *What Is Environmental Enrichment?*

Environment Enrichment involves enhancing our dog's lives. It incorporates the physical habitat, sensory stimulation, cognitive stimulation, social stimulation and food.

## *Why is Environmental Enrichment Important?*

Dogs are a social animal and therefore being alone is difficult. Barking, digging, escaping and even aggression can be signs of stressed or bored dogs. We need to enrich their lives to keep them

Kong and Kong Wobbler

Jaffa plays with his treat finding toy. (permission to use)

Groove Toys . Smear with Cheesymite

Nina Ottosson Interactive Toys

Inside bed near the family

Carrots and Herbs to play with

Outside Bed
